

Patient Centered Medical Home

A patient centered medical home (PCMH) is a system where a team of health professionals work together to provide you with the best possible health care.

PCMH ensures that the care you receive is evidence-based which leads to improved health, increased safety, and high quality care

Support & Services

- Medical Care
- Pharmacy
- Dental (only some sites)
- Resource Support
- Behavioral Health
 - Counseling
 - Substance use treatment
 - Peer support services

How To Participate in Your Care

- Share your medical records from previous healthcare settings
- Tell us about all the medications you're currently taking
- Actively follow the plan and goals you set with your care team
- Let any other hospitals or specialists you go to know that we are your primary care provider

Benefits for YOU

- Your care team will work with you to meet both current and whole health needs
- We help you take control of your health by providing education, resources, and referrals to other services in the community
- 24-hour access to clinical advice by phone and secure messaging availability direct to your care team
- With your care team, decide what appointment type works best for you : in-person or telehealth
