ONE HEALTH PATIENT RIGHTS

One Health believes your rights and responsibilities are an important part of providing quality health care. We consider you a partner in your health care. When you are well informed, participate in treatment decisions, and communicate openly with your doctor and other health professionals, you help make your care as effective as possible.

Your rights as a patient of One Health:

- Receive high quality care based on professional standards of practice, regardless of your ability to pay for such services.
- Obtain services without discrimination on the basis of race, ethnicity, national origin, sex, age, religion, physical or mental disability, sexual orientation or preference, marital status, socio-economic status or diagnosis/condition.
- Be treated with courtesy, consideration and respect by all One Health staff, at all times and under all circumstances, and in a manner that respects your dignity and privacy.
- Be informed of One Health’s Privacy Policies and Procedures, as the policies relate to individually identifiable health information.
- Expect that One Health will keep all medical records confidential and will release such information only with your written authorization, in response to court order or subpoenas, or as otherwise permitted or required by law.
- Access, review and/or copy your medical records, upon request, at a mutually designated time (or, as appropriate, have a legal custodian access, review and/or copy such records), and request amendment to such records.
- Know the name and qualifications of all individuals responsible for your health care and be informed of how to contact these individuals.
- Request a different health care provider if you are dissatisfied with the person assigned to you by One Health. One Health will use best efforts but cannot guarantee that re-assignment requests will be accommodated.
- Receive a complete, accurate, easily understood, and culturally and linguistically competent explanation of (and, as necessary, other information regarding) any diagnosis, treatment, prognosis, and/or planned course of treatment, alternatives (including no treatment), and associated risks/benefits.
- Receive information regarding the availability of support services, including translation, transportation and education services.
- Receive sufficient information to participate fully in decisions related to your health care and to provide informed consent prior to any diagnostic or therapeutic procedure (except in emergencies). If you are unable to participate fully, you have the right to be represented by parents, guardians, family members or other designated surrogates.

- Ask questions (at any time before, during or after receiving services) regarding any diagnosis, treatment, prognosis and/or planned course of treatment, alternatives and risks, and receive understandable and clear answers to such questions.
- Refuse any treatment (except as prohibited by law), be informed of the alternatives and/or consequences of refusing treatment, which may include One Health having to inform the appropriate authorities of this decision, and express preferences regarding any future treatments.
- Obtain another medical opinion prior to any procedure.
- Be informed if any treatment is for purposes of research or is experimental in nature and be given the opportunity to provide your informed consent before such research or experiment will begin (unless such consent is otherwise waived).
- Develop advance directives and be assured that all health care providers will comply with those directives in accordance with law.
- Designate a surrogate to make health care decision if you are or become incapacitated.
- Ask for and receive information regarding your financial responsibility for the services.
- Receive an itemized copy of the bill for your services, an explanation of charges, and description of the services that will be charged to your insurance.
- Request any additional assistance necessary to understand and/or comply with One Health's administrative procedures and rules, access health care and related services, participate in treatments, or satisfy payment obligations by contacting us (see below).
- File a grievance or complaint about One Health or its staff without fear of discrimination or retaliation and have it resolved in a fair, efficient and timely manner.
